

## Novell Netware 5.X to 6 Upgrade

- Author : David Johnson
- Publisher : Que Publishing, 2003
- pages : 426 pages
- N° Class : 621/265

This certification permits NetWare 5.x Certified Novell Engineers (CNEs) to upgrade their credentials to NetWare 6. Individuals who hold CNE certification for any version of NetWare 5 can recertify for NetWare 6 by taking a single exam, 50-676: Upgrading to NetWare 6. This book focuses on exactly what readers need to get certified now - featuring test-taking strategies, time-saving study tips, and a special Cram Sheet that includes tips, acronyms, and memory joggers that are not available anywhere else. The Exam Cram2 series is the smartest, most efficient way to become certified! Each book is published under the direction of Series Editor Ed Tittel, the leading authority on certification and the founder of The Exam Cram Method(tm) series, and has also been deemed Cramsession(tm) Approved Study Material.

The accompanying CD features PrepLogic(tm) Practice Tests, Preview Edition. This product includes one complete PrepLogic Practice Test with approximately the same number of questions found on the actual vendor exam. Each question contains full, detailed explanations of the correct and incorrect answers. The engine offers two study modes, Practice Test and Flash Review, full exam customization, and a detailed score report.
